SUMMARY

Senior Document Controller with **15+** years of experience in Document Control, EDMS, and information management across EPC, infrastructure, construction, hospitality, and oil & gas projects in Egypt and GCC environments. Experienced in managing the full document lifecycle, including document registration, numbering, metadata, revisions, transmittals, submittals, RFIs, technical documentation, review and approval workflows, distribution, and project closeout.

Advanced user and administrator of **Oracle Aconex and EDMS platforms**, with strong knowledge of ISO 9001, document management procedures, QA/QC documentation, audit readiness, and compliance. Proven track record of managing high-volume project documentation, leading Document Control teams, optimizing workflows, monitoring document status and turnaround time, and supporting project management through accurate KPI reporting and dashboards using Power BI and Advanced Excel.

Currently managing Document Control activities across four concurrent mega projects, coordinating with clients, consultants, subcontractors, and multidisciplinary project teams while leading a team of Document Controllers to ensure timely, accurate, traceable, and compliant project deliverables.

CORE COMPETENCIES

- Document Control Management
- EDMS & Aconex Administration
- Document Lifecycle Management
- Document Register Management
- Transmittals, Submittals & RFIs
- Drawing & Technical Document Control
- Workflow & Review Management
- Revision & Version Control
- Metadata Management
- ISO 9001 & QA/QC Compliance
- Audit Preparation & Closeout
- KPI Reporting & Dashboard Development
- Power BI & Advanced Excel
- Team Leadership & Supervision
- Client / Consultant / Contractor Coordination

PROFESSIONAL EXPERIENCE

Hassan Allam Construction, Sr. Document Controller
Projects:

- Dry Bulk Terminal Project
- DP6 Project
- Infrastructure (INFRA) Project
- Sewage Treatment Plant (STP) Project

Key Responsibilities:

- Managing all document control activities across four concurrent mega projects in Ras El Hekma.
- Administering and maintaining the **Oracle Aconex** Common Data Environment (CDE) for all project documentation and workflows.
- Controlling the full lifecycle of engineering, technical, commercial, and contractual documents in accordance with project procedures and ISO standards.
- Managing document transmittals, reviews, approvals, revisions, and distribution through Aconex.
- Coordinating with clients, consultants, subcontractors, and internal departments to ensure timely document flow and compliance with project requirements.
- Monitoring document status, turnaround times (TAT), and overdue submissions while generating periodic reports for project management.
- Ensuring document numbering, metadata, version control, and filing structures are maintained accurately.
- Supporting project teams during audits and ensuring compliance with document management procedures.
- Leading the implementation of document control best practices across multiple project teams.
- **Leading a Document Control team consisting of two Document Controllers and one Senior Document Controller, assigning workloads, monitoring performance, and ensuring timely project deliverables**

June 2026 – Present

Semiramis Hotels IHG, Senior Document Control
Managed end-to-end document control processes including document registers, submittals, RFIs, transmittals, and document review cycles, ensuring accuracy, traceability, and compliance with ISO 9001 and project standards.
Improved document turnaround efficiency by 100% through workflow optimization and enhanced document tracking.
Developed and implemented document control procedures, numbering systems, and workflows across project lifecycle.
Supervised document control team and coordinated with engineering, vendors, and clients for timely document submission and approval.
Maintained strict version control, metadata integrity, and audit-ready documentation systems (EDMS).
Generated reports and KPIs to monitor document status, turnaround time, and overall performance.
Led project closeout documentation, ensuring complete and compliant handover packages.

February 2026 – June 2026
Cairo

Elsewedy Electric Infrastructure, Senior Document ControllerApril 2023 – February 2026
Cairo, Egypt

Lead all document control activities for large-scale electrical and infrastructure EPC projects, managing over 30,000 controlled documents across multiple disciplines.
Administer full document lifecycle through Aconex, ensuring strict control of metadata, revisions, workflows, and access rights.
Standardized document control procedures in alignment with ISO 9001, significantly reducing audit findings and improving compliance performance.
Supervise and mentor a team of 5 Document Controllers across 5 concurrent EPC projects.
Achieved zero major non-conformities during internal and external audits through rigorous QA/QC controls.

Madkour Projects, Senior Document ControllerApril 2021 – April 2023
Cairo, Egypt

Managed document control operations for electrical and construction projects within EPC contractual frameworks.
Ensured full traceability and retrievability of engineering documents for audits and client reviews.
Streamlined correspondence and transmittal workflows, reducing turnaround time and distribution errors.
Established and maintained integrated electronic and hard-copy filing systems.

Elsewedy Electric T&D, Senior Document ControllerApril 2018 – April 2021
Cairo, Egypt

Controlled high-volume engineering documentation for up to 9 concurrent transmission and distribution projects.
Developed automated master document registers and tracking logs to ensure real-time reporting accuracy.
Maintained strict control over drawings, specifications, and technical records in compliance with corporate standards.

Hassan Allam Construction, Document controllerDecember 2017 – April 2018
Cairo, Egypt

Managed Document distribution between consultants, subcontractors, and project teams.
Implemented controlled access, archiving, and retention procedures for project documentation.

ISO Termica, Document Controller & Site CoordinatorMarch 2011 – November 2017
Cairo, Egypt

Coordinated document control activities for construction and heat exchanger projects.
Acted as a liaison between site teams and head office to ensure timely submission and approval of documentation

CONSULTANCY & DATA ANALYSIS PROJECTS**Freelance Data Analyst & Documentation Specialist**

- Saudi Ministry of Water: Developed analytical and presentation-ready reports supporting large-scale water projects.
- Al-Mekyal Saudi Company: Delivered data analysis and reporting solutions to support management decision-making.
- EPC Engineering Teams (KSA): Produced dashboards and analytical reports to improve document visibility and lifecycle control
